

Dry ice Blasting Machine Hopper

FTDIBL 15/30

SYSTEM CONTROL- AUTOMATION
PLC controlling all functions

STAINLESS STEEL ENCLOSURE
Moisture-Free & Noise Reducing

COOLING PROCESS
Continuous process | High cooling capacity

*Designed with superior performance nozzles.
Suitable for applications demanding extra zeal.*

- *Material body - SS 304*
- *machine system - Single hose / Double hose*
- *Power Source - Electrical- Single Phase*
- *Motor capacity: 7.5 kw & three phase power*
- *Hopper capacity- 15 Kg and 30 Kg*
- *Dry Ice Feed Rate : 15 – 80 Kg*
- *Adjustable Velocity- 700-900 mtrs/sec*
- *Blasting Pressure: 0-10 Bar and 0 - 15 Bar*

Machine Dimensions

Length x Width x Height:

1200 mm X 600mm X 1000 mm
